# Adult Mental Health Service

This is information about the work we need to do in Adult Mental Health Service.

Difficult words are in **bold**.

We will tell you what they mean.

We want you to tell us about your experience with our service.

We want you to tell us what is important to you.

This will help us to make our service better for everyone.

# What is the General Adult Mental Health Secondary Care pathway?

There are lots of teams and services in Adult Mental Health.

**The secondary care pathway is:**

- Unscheduled Care
- General Adult Mental Health Liaison Psychiatry
- General Adult Psychiatry Inpatients
- Community Adult Mental Health Teams
- Social Work

# What will we do?

We will **review** the General Adult Mental Health Secondary Care **pathway**.

A **review** is to find out what people think about our service.

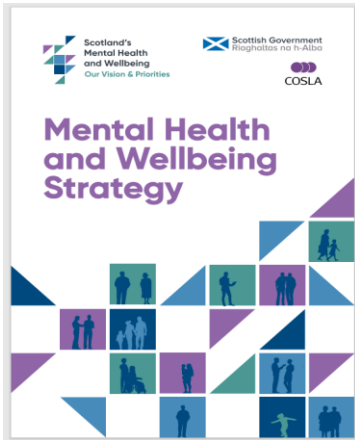

We want to know what your experience was like using our service.

A **pathway** is what should happen for people to get the right support at the right time.

# Why do we need to do the review?

The Scottish Mental Health and Wellbeing **Strategy** was published in June 2023.

A **strategy** is a plan of work.

This strategy tells us about what we need to do improve the mental health and wellbeing of everyone in Scotland.

The review will help us to see if we need to make changes to the way we work.

# What can you do to help us?

There are different ways people can be involved in this review.

You may be invited to join a group.

We will listen to what you tell us.

This will help us to understand more about our service.

# What will happen next?

When we have finished working on the review we will write a report.

We will ask you what you think about our report.

The final report will go to the Mental Health Portfolio Board and the Integration Joint Board.
